

QUICKPEEK COLOUR PROOFING KIT

The QuickPeek produces a color proof from a small volume of ink.

It replicates final print quality enabling you to check color, drying time, rub-proofness and light-fastness.

The kit consists of :

- a proofing roller
- a proofing plate
- a measuring bar
- a metering plunger and spatula

Features

- Eliminate press downtime for ink color correction
- Proofs to test drying time, rub-proofness and light-fastness
- Quickly evaluate inks to verify conformance to specifications
- Calculate ink mileage to forecast consumption
- Accurate proof of ink on colored stocks or when overprinting another ink

Cardboard, Paper
